Data collection with smart assistant

- About MightyFields platform
- Smart assistant use cases
- Demo
- How it works
MightyFields enables companies to create their own custom digital forms with a simple drag and drop form designer, to share their data with field teams.

Our product also enables companies to schedule field operations based on location or time.
USE CASE

Writing long statements or descriptions for current field situations.

Example: construction site inspections
USE CASE

Helps people with disability.

Example: people with bad eyesight
USE CASE

Dangerous work - jobs where you have to precisely follow security protocols.

Example: wearing gloves at all times.
DEMO
HOW IT WORKS?

1. Google Speect-To-Text
